

Bio. Mark Demonbreun, CPP

Here is a short bio to go with my picture.

I have been working in payroll since April of 2001, became an FPC in the fall of 2001, and obtained my CPP certification in the spring of 2007. I have been a payroll coordinator at Corrections Corporation of America since October of 2007 and it's a great company to work for.

I love working in Payroll because it is a part of every industry and I enjoy having expertise in an area that everyone has questions about from time to time. Plus, it's fun learning about fields that I otherwise would not have any exposure to, my current company's field of corrections being a great example.

I have lived in Nashville my entire life, now with my fiancée, Beth, who works as a nurse. We will be married in November 2009. We'll have children in two or three years. We both love cats and volunteer our time to rescue, vaccinate, spay and neuter, and adopt them out.

In my spare time I also enjoy reading and playing laser tag.
